PANDEMI COVID-19**

ABSTRACT

The impact of Covid-19 has hit almost all sectors, one of which is the economic sector such as the network marketing or MLM industry which causes downline sales and recruitment to decline, all distributor activities such as sales and recruitment must switch to online methods. This impact can affect the psychological well-being of Tiens Syariah distributors. Psychological well-being is an individual who is psychologically able to function in a positive psychological functioning where the individual has a healthy mental condition. Research conducted by Rosalina and Siswati (2018), explains that there is a significant positive relationship between psychological capital and psychological well-being. The purpose of this study was to determine the effect of psychological capital on psychological well-being in Tiens Syariah multi-level marketing (MLM) distributors in Karawang Regency with the number of participants as many as 210 respondents with a sample of 131 respondents using the Issac and Michael formula with a level of 5%. This research method uses quantitative methods with data collection techniques using quota techniques. Based on the results of the simple regression test obtained $\text{sig} = 0.00 < 0.05$, with a coefficient of determination of 24.9%. These results indicate that there is an influence of Psychological Capital on Psychological Well-Being.

Keywords: Psychological well-being, Psychological capital, Multi level marketing (MLM) Tiens Syariah Kabupaten Karawang.
