

## **ABSTRAK**

Penelitian ini bertujuan untuk mengetahui pengaruh likuiditas (*current ratio*), solvabilitas (*debt to equity ratio*), dan profitabilitas (*return on assets*) terhadap harga saham pada PT astra Agro Lestari Tbk. tahun 2017 – 2021, baik secara parsial maupun simultan. Populasi dalam penelitian ini adalah laporan keuangan PT astra Agro Lestari Tbk tahun 2017 – 2021 yang di ambil per-triwulan dengan menggunakan teknik *nonprobability sampling*. Dengan menggunakan pendekatan sampling Jenuh. Penelitian ini dilakukan dengan metode deskriptif dan verifikatif dengan pendekatan kuantitatif, yaitu: mengumpulkan, menyajikan, menganalisis dan melakukan pengujian hipotesis, serta membuat kesimpulan dan saran. Metode analisis yang digunakan adalah analisis statistik deskriptif, uji asumsi klasik, dan analisis regresi linear berganda dengan pengujian hipotesis SPSS 26. Hasil penelitian ini menunjukkan bahwa; (1) Likuiditas (*current ratio*) secara parsial tidak memiliki pengaruh signifikan terhadap harga saham (2) Solvabilitas (*debt to equity ratio*) secara parsial memiliki pengaruh negatif dan signifikan terhadap harga saham (3) Profitabilitas (*return on assets*) secara parsial tidak memiliki pengaruh signifikan terhadap harga saham (4) likuiditas (*current ratio*), solvabilitas (*debt to equity ratio*), dan Profitabilitas (*return on assets*) secara simultan memiliki pengaruh signifikan terhadap harga saham.

Kata kunci: Likuiditas, Solvabilitas, Profitabilitas, dan Harga Saham.

## ABSTRACT

This study aims to determine the effect of liquidity (*current ratio*), solvency (*debt to equity ratio*), and profitability (*return on assets*) on the share price of PT astra Agro Lestari Tbk. 2017 – 2021, either partially or simultaneously. The population in this study is the financial statements of PT Astra Agro Lestari Tbk for 2017 – 2021 which are taken quarterly using the nonprobability sampling. By using Saturated sampling approach. This research was conducted using descriptive and verification methods with a quantitative approach, namely: collecting, presenting, analyzing and testing hypotheses, as well as making conclusions and suggestions. The analytical method used is descriptive statistical analysis, classical assumption test, and multiple linear regression analysis with SPSS 26 hypothesis testing. The results of this study indicate that; (1) Liquidity(*current ratio*) partially does not have a significant effect on stock prices (2) Solvability(*debt to equity ratio*) partially has a negative and significant effect on stock prices (3) Profitability(*return on assets*) partially does not have a significant effect on stock prices (4) liquidity(*current ratio*), solvency(*debt to equity ratio*), and Profitability(*return on assets*) simultaneously have a significant influence on stock prices.

*Keywords: Liquidity, Solvency, Profitability, and On Share Prices*
