LEMBAR PERSETUJUAN	2
LEMBAR PENGESAHAN	3
LEMBAR PERNYATAAN	4
KATA PENGANTAR.....	5
DAFTAR ISI	6
DAFTAR TABEL	7
DAFTAR GAMBAR.....	8
DAFTAR LAMPIRAN	9
ABSTRACT	10
1. INTRODUCTION	10
2. METHODS.....	11
2.1. Dataset and Attribute Description.....	12
2.2. Preprocessing	12
2.3. Feature Selection Using PCA	14
2.4. Models Overview	14
3. RESULTS AND DISCUSSION.....	18
3.1. Performance Measurement with confusion matrix and ROC curve	18
3.2. Performance Proposed Method Comparison with ROC Curve	19
3.3. Performance Comparison Previous Study	19
4. CONCLUSION	19
REFERENCES	20
BIOGRAPHY OF AUTHORS.....	22

DAFTAR TABEL

Table 1. Kaggle BC Dataset Description	12
Table 2. Performance each algorithm based on confusion matrix.....	18
Table 3. Result of FPR and TPR each algorithm	19
Table 4. Performance comparison with previous study.....	19

DAFTAR GAMBAR

Fig. 1. Flowchart of research stage	12
Fig. 2. EDA distribution class in dataset.....	12
Fig. 3. General look for missing values and duplicate data.....	13
Fig. 4. Histogram of numerical data before and after normalization.....	13
Fig. 5. Pareto plot of eigenvalue in PCA	14
Fig. 6. Proposed ANN flowchart method.....	15
Fig. 7. ANNs visualization before and after using Early Stopping	15
Fig. 8. SVM linear and RBF kernel for best c value.....	16
Fig. 9. Decision tree visualization	17
Fig. 10. Confussion matrix of all models.....	18
Fig. 11. ROC of all models	19
