ABSTRACK

The village election (Pilkades) is a form of implementation at the village level, referring to the provisions in Law No. 2014 concerning villages, which states that the implementation of village head governance is conducted simultaneously throughout the district/city. However, since March 2020, the world has faced the Covid-19 pandemic, which has directly impacted the implementation of the village election in Sukamerta Village. Therefore, the Karawang Regency Government issued Regional Regulation No. 4 of 2021 Concerning the Procedures for the Election of Village Heads During the Covid-19 Pandemic. The issues in this research are: 1). Has the implementation of health protocols been carried out in accordance with Regional Regulation No. 4 of 2021 Concerning the Procedures for the Election of Village Heads During the Covid-19 Pandemic in Sukamerta Village, Karawang Regency? 2). What is the mechanism for the simultaneous election of village heads based on Regional Regulation No. 4 of 2021 Concerning the Procedures for the Election of Village Heads During the Covid-19 Pandemic in Sukamerta Village, Karawang Regency? The objectives of this research are: 1). To understand the implementation of health protocols due to the impact of the Covid-19 spread. 2). To know the prevention mechanisms for new victims affected by the Covid-19 virus. The research method used is qualitative research employing an empirical juridical approach, which involves examining the research object through observation, interviews, and primary data sources obtained directly from the field. Although the village head election in Sukamerta Village was held during the Covid-19 pandemic, everything had to comply with health protocols, and this did not reduce the participation of the Sukamerta Village residents in celebrating the village head election event. Due to the teamwork exhibited by the committee and the election process, the village head election in Sukamerta Village ran smoothly according to regulations.
