NIM. 16416287205036

ABSTRAK

Penelitian ini dilakukan atas dasar kegelisahan peneliti terkait dengan rendahnya kemampuan menyampaikan pendapat mahasiswa di depan umum. Metode yang digunakan dalam penelitian ini adalah kuantitatif dengan menggunakan analisis korelasional. Tahapan dalam penelitian ini yaitu uji instrumen, pengumpulan data, menganalisa data, serta menginterpretasikan data. Populasi penelitian adalah anggota organisasi kepramukaan Universitas Buana Perjuangan Karawang. Teknik pengumpulan data yang digunakan adalah teknik probability sampling dengan teknis analisis regresi linier sederhana. Dari hasil penelitian diperoleh ($t_{hitung} = 5.424 > t_{tabel} = 2.042$; $p \text{ value} = 0,00 < 0,05$) hasil tersebut menunjukkan bahwa hipotesis terdapat pengaruh yang signifikan antara organisasi kepramukaan terhadap kemampuan menyampaikan pendapat mahasiswa (H_1) diterima. Hasil penelitian dapat disimpulkan bahwa terdapat pengaruh positif dari organisasi kepramukaan terhadap kemampuan menyampaikan pendapat mahasiswa, didapatkan hasil bahwa persentase 51,2% faktor organisasi kepramukaan mempengaruhi kemampuan menyampaikan pendapat mahasiswa. Berdasarkan hasil penelitian, peneliti menyarankan agar mahasiswa melaksanakan tugas sabaik-baiknya dengan harapan mampu memotivasi diri dan mengeksplor pengetahuan juga pengalaman untuk kehidupan nyata di luar kampus dan pemangku kebijakan lebih mengapresiasi segala bentuk potensi mahasiswa termasuk kemampuannya dalam menyampaikan pendapat.

ABSTRACT

This research was conducted on the basis of researchers anxiety related to the low ability to express students' opinions in public. The method used in this research is quantitative by using correlational analysis. The stages in this research are instrument testing, data collection, analyzing, and interpreting data. The study population was the members of the scouting organization of Buana Perjuangan University, Karawang. Data collection techniques used are probability sampling techniques with simple linear regression analysis techniques. The research results obtained that ($t_{count} = 5.424 > t_{table} = 2.042$; $p \text{ value} = 0.00 < 0.05$) these results indicate that the hypothesis there is a significant influence between the scouting organization on the ability to express student opinion (H_1) is accepted. The results of the study it can be concluded that there is a positive influence of the scouting organization on the ability to express students' opinions, it is found that the percentage of 51.2% of the scouting organization factor influences the ability to express students' opinions. Based on the results of the study, the researcher suggested that students carry out their duties as well as possible in the hope of being able to motivate themselves and explore knowledge as well as experiences for real life off campus and policy makers to appreciate all kinds of potential students including their ability to express opinions.

Keywords: Organization, Scouting, Expressing Opinion
